LADIES' LOUNGING COATS. VERY APPROPRIATE CHRISTMAS PRESENTS An authority upon fashion writes: "Ladies" Lounging Coats have become settled institutions in the wardrobes of practical, as well as luxury loving women."

These Coats are the prettiest novelties of the season for housewear. They are made 24 to 27 inches long, with loose fronts, double breasted, and three-quarter fitting backs. The collar rolls like a man's coat collar, or slopes away a la Byron, while the sleeves are contshaped, large and easy; slit or outside pockets finish the front, in addition to silk cord fasteninvs or frogs, similar to those on men's house coats and smoking jackets.

The materials are Lamb's Wool, Eider Down Flannels, Fine Blanket Flannels, Scotch Worsted Plaids, Figured Silks, &c. The finish is simple stitching cord edge, or

satin binding and facings. Prices for these Coats range from --- \$11 to \$35 each. ---To wear with these Lounging Coats we show

SAKS AND COMPANY'S COLUMN.

This is as late as we can report on today's business through the "Star." But it is a GRAND, GLORIOUS SUCCESS-this \$13.75 SUIT SALE. \$3 \$13.75 for \$24 Suits-\$13.75. TA ## \$13.75 for \$23 Suits-\$13.75. \*\*\* ## \$13.75 for \$22 Suits-\$13.75. 1

We have seen one or two of our "friends-the enemy," shrouded in the mystery of their own discontent, industriously searching through the stock in a frantic endesvor to find some "nail on which to hang" their insolent suspiclons. How fruitless their task you who have benefited by our fearless enterprise know to a certainty. And these "bumps on the log of trade" know it to their sorrow. They don't like these sales. WHILE DRINKING THE KAISER'S HEALTH. THE CALIFORNIA SOCIETY FOR THE SUPPRESSION OF VICE, 8AN FRANCISCO, July 7th, 1885. Americans intending to pay a visit to Germany should paste in their hats a new decision of the supreme court of the empire, at Leipsic, that if you remain seated when the health of I took a severe cold upon my chest and lungs and did not give it proper attention: it developed into bronchitis, and in the fall of the same year I was the emperor is proposed you are guilty of the crime known as lese majestas, a sort of petty treason, punishable by various degrees of imthreatened with consumption. Physicians ordered prisonment and German prison diet. As the case presented and decided applied only to the emperor, it may reasonably follow that the same decision would be arrived at in the case Miss Howard has brought her adopted child, Mamie, to New York with her. Mamie is a fat, me to a more congenial climate, and I came to San Francisco. Soon after my arrival I commenced taking Scott's Emulsion of Cod Liver Oil and Hypophosphites regularly three times a day. DISTRESS PREVAILING IN ITALY.

Advices from Italy state that the gravity of

tion of the laboring classes is increasing. The great army of unemployed grows larger every day, and as it increases in size it grows more day, and as it increases in size it grows more menacing. There are 40,000 idle workmen in Milan alone, and the same relative proportion holds good for the other cities of Italy. At the Milan alone, and the same relative proportion holds good for the other cities of Italy. At the same time the peasantry is in a half-starving condition. Agitators are urging the suffering people to resort to violence to procure bread and robbery and other crimes are rampant. A favorite form of theft is to despoil the churches. Forty churches in a single locality, that of Ferrara, have been robbed.

EMIN PASHA'S RECALL. The correspondents at Berlin of both the Chronicle and Standard say they do not believe the recall of Emin from the interior of Africa is definite. They consider that it is due to Baron Wissmann alone and is probably not favored by the German government.

SHORT BULL PROPOSES TERMS. He Tells Gen. Brooke That the Indians Will Come in Conditionally.

PINE RIDGE, VIA RUSHVILLE, NEB., Dec. 22 .-Short Bull came in from the Bad Lands yester-day and had a talk with Gen. Brooke. It was the same old story that there were men in his camp who would come in provided that the promises were kept and the pledge given that no one should be arrested and sent to prison. What Gen. Brooke said is not known, but from what was said yesterday by Gen. Miles no gov-ernment officer or other official can make any promises with the assurance that the government will carry them out. To bring in these Indians under the pledges that they ask and then to attempt to arrest or disarm them would precipitate a massacre at Pine Ridge.

By telegraph it is learned at Rapid City that
Col. Stanton found some of the Sitting Bull
fugitives and some Cherry Creek Indians crossing the Bad Lands toward Kicking Bear's camp.
Stanton chased them into the Bad Lands reasons. Stanton chased them into the Bad Lands near White river, opposite the mouth of Wounded Knee creek. No soldiers were hurt and proba-bly no Indians.

Capt. Adams and Carr's scouts are slowly closing in from the west side of the Little Missouri. It looks as though the redskins have been forewarned of them have been met with. POOR WHITES TO BLAME, liss Grace Howard's Verdict on the Cause

New York, Dec. 22.- Miss Grace Howard Ayer's Pills with good results, I can confidently recommend them above all others." Dr. Geo. P. Spencer troubles cannot fail to be settled very soon. The principal obstacle in the way of an immeliate settlement lies in the lower white ele ment, with whom is the responsibility of the whole disturbance to an extent not generally known in the east. These people welcome troops in the country for the reason that it

puts money in circulation.

Miss Howard has come east on her annus vacation of three months. Her school is situated about 100 miles from the hostile region, being half way between Pine Ridge and Stand-ing Rock. Among the 2,300 Indians on the reservation there was only one man who eve contemplated joining the dance. White Ghost the chief, recently wrote a very dignified letter to the department promising a continuance of the peaceful attitude of his tribe and giving a his opinion "if the community, paletaces and Indians alike, would join in a prayer for rain rather than for arms it would be well."

THE GOVERNMENT'S POLICY CONDEMNED. Miss Howard condemns the government poliev of cutting down rations without giving some equivalent in the way of horses, cattle or agricultural implements. The crops have been so poor this year and times so hard throughout the entire west that even the white farmer have had all they could do to make a living Among the Indians, with their inferior advant lans object to the British encroachments and the British colonists, who have been seizing sus, she believes, was taken with perfect fair sus, she believes, was taken with perfect fairness. Rations were issued for 7,000, while the number of Indians is nearer 5,000. But the rations are very small. Less than a handful of coffee or sugar is issued to each person weekly. Clothes and blankets have been very late in coming this year. Cold weather has set in and the people have not received their winter

SCHOOL AND MISSION WORK.

Of her school and mission work Miss Howard

has a great many interesting things to say. The children are very bright and far more industrious than their white brothers and sisters. They are quick at their lessons and out of to mention, who abound in the fatherland. It would also be well, therefore, for every tourist to be armed with a copy of Almanacs de Gotha and keep his ears open for royal and imperial toasts.
